

# Perle

Design Federico de Majo, 2003

Fatto a mano / Handmade

Vetro colorato in massa / Mass-colored glass

Il disegno di Perle riunisce in sé antica tradizione artigianale del vetro e design contemporaneo. Il piacevole contrasto fra trasparenze e pasta vitrea, che origina effetti di grande fascino, è ottenuto tramite la particolare lavorazione della spirale applicata e spezzata, eseguita completamente a mano e interpretata sapientemente da abili maestri vetrai. Tumbler in sedici brillanti nuances, bowl, caraffa, beverage e calice compongono una serie per la tavola creata per arricchire ogni tavola.

Questa ormai iconica collezione di Zafferano è prodotta in vetro colorato in massa, soffiato a bocca e lavorato a mano, lavabile in lavastoviglie a 60° C.

Tumbler e bowl piccole sono disponibili in confezioni da due (stesso colore) o in confezioni da sei (colori assortiti).

The design of Perle combines an ancient glass tradition with contemporary design. The pleasing contrast between transparent and opaque glass is achieved through the elaborate technique of the “applied and broken spiral”: performed entirely by hand and expertly interpreted by skilled master glassmakers, it originates fascinating effects. Tumbler in sixteen bright colors, bowl, carafe, beverage glass and goblet make up a tableware series created to enrich every table.

This iconic Zafferano collection is made of mass-colored, mouth-blown, and handcrafted glass that is dishwasher safe at 60° C. Tumblers and small bowls are available in packs of two items (same color) or in packs of six items (assorted colors).
