

Aleazym FLOT L

COMPOSITION

ALEAZYM FLOT L is a pectinase in liquid form at a minimum activity of 560 PLU/g, stabilized with potassium sorbate and standardized with KCL, produced in accordance with current legislation.

GENERAL CHARACTERISTICS

ALEAZYM FLOT L is a highly concentrated pectolytic enzyme based on pectinases produced by selected classical strains of *Aspergillus niger* for the treatment of white and rosé wine musts.

RECOMMENDED DOSAGES

Flotation 1-3 g 1-2 hours at 20°C Clarification 1-3 g 8-12 hours at 15°C

MODE OF USE

ALEAZYM FLOT L is a very fast and efficient clarifying enzyme at the pH of the must. Make the addition (after dilution in 5% water) directly into the must, taking care to thoroughly homogenize the mass to be treated.

PACKAGES AVAILABLE

Bottle 1 kg 20 kg canister 5 kg canister

STORAGE CONDITIONS

Unopened package: store in a cool (possibly refrigerated environment at 10°C), dry and ventilated place.

Open package: close tightly and store as indicated above; consume quickly.

Exclusively for oenological and professional use - Reg. (EU) 2022/68

Complies with Reg. (EC) No. 1332/2008

Product obtained from raw materials in accordance with O.I.V. International Oenological Codex
